

### ***Professional C.V. - Icilio Adami***

Born in Monza (Italy) in 1951.

Graduated in Chemistry at the University of Milan in 1976.

He has joined Desmet Ballestra Company in 1977, as responsible of the Laboratory and Pilot plant.

Since that time, he has been always involved in the development of processes and technologies for the production of formulated detergents and surfactants.

He is Vice President of the CID (Italian Committee of Detergents and Surfactants) and is author and co-author of several publications concerning the production technology of detergents and anionic surfactants.

Presently he covers the position of R&D Director of Desmet Ballestra S.p.A.
